Problem – Solution Fit Template:

ServiceNow Employee Training Access Control

2 Marks

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

SERVICE NOW – PROBLEM / SOLUTION FIT

1. CUSTOMER SEGMENT(S) - HR Manager / ServiceNow Administrator - Manages Employee Training Records. - Needs employee-linked records and reporting.	6. CUSTOMER CONSTRAINTS - Role/ACL permissions are required. - Security_admin elevation is needed for ACL setup. - Users need correct application/module access.	5. AVAILABLE SOLUTIONS - Employee Training table - Import Sets + Transform Maps - sys_user reference + dot-walking - Roles, ACLs and impersonation
2. JOBS-TO-BE-DONE / PROBLEMS - Create employee-linked training records. - Import XLSX data accurately. - Show Department for easier reporting. - Control who can read/edit records.	9. PROBLEM ROOT CAUSE - Training data needs employee context. - Department is stored on related sys_user. - Access must be enforced through role-based ACLs.	8. BEHAVIOUR OF BEHAVIOUR - On the ServiceNow platform, import Sets, Transform Maps, User Admin and Department. - Use the XLSX Import Sets + Transform Maps. - Create HR Manager role and assign it to the HR Manager user. - Impersonate HR Manager user to test access.
3. TRIGGERS Reporting need; data import; security validation.		
4. EMOTIONS: BEFORE / AFTER - Before: manual effort / access concern. - After: clear reporting / controlled access.	10. YOUR SOLUTION - ServiceNow Employee Training Access Control. - Training Name, Completion Date, Status, Employee. - XLSX Import Sets + Transform Maps. - Employee.Department via dot-walking. - HR Manager role + Read/Write ACLs. - Impersonation validates authorized vs other user.
